SUBJECT.

Reducing the concessional flat rate fixed for electric lights in the Gumbuz and the institutions at Seruget

To the Mg

No 931 of 8-1-34

Forwards copy Electrical Department letter approving that the installation for the exterior illumination of Temple Gopuras Minarets and Temple Gates advertising

Serial No.

1

The recommendation is to the effect that a flat rate of Rs 7-8-0 may be fixed for the Masjid or that the current be charged at 0-1-0 per unit as in the case of power used for advertisement charges. It is stated that the chief Electrician Engineer who was consulted by the M.C in the matter, is not agreeable to either of these two suggestions.

2 The M.C. points out that at the October Session (1933) of the R.A. Govt promised to examine sympathetically the question of showing further concessions to Religious and charitable institutions in regard to lighting rates. It is therefore for consideration whether the chief Electrical Engineer may not be consulted in the matter [illegible]

16/10 perhaps be consulted both in the first instance.

I agree with the views expressed in the Chief Chief Electrical Engineer's U.O.Memo dated the 6th overber 1933.

The Chief Electrical Engineer's proposal re. charging a concession rate of 0-1-0 per unit for exterior illumination of temple towers etc., has been submitted to Government (through the Financial Secretary to Government) in this office No.D.320 dated the 8th November 1933.

Returned, with compliments, to the Secretary to Government, Electrical Department.

Recently, we have sent a recommendation to Government for charging at the rate of 0-1-0 per unit for installations which are solely meant for the exterior illumination of the buildings, such as installation of flood-lights, strip lights, etc. and treat the installations similar to those of advertisement lights. If this proposal is approved by Government, the power consumed by the exterior illumination of the Masjid at Seringapatam will be charged at 0-1-0 per unit, which is the concession asked for by the authorities concerned.

With regard to the interior illumination, the concession asked for cannot be granted and the authorities should arrange to pay at the rate of 0-3-0 per unit as is being done in the case of other charitable institutions. If the concession of a monthly flat rate is granted, it is likely that all other institutions will approach for a similar concession and it would be difficult to keep track of the exact consumption from time to time, which is likely to increase without any hinderance. Hence, it is not desirable to grant the concession asked for.

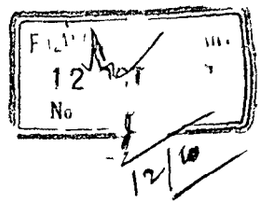
OFFICE OF THE MUZRAI COMMISSIONER IN MYSORE.

Dated, Bangalore, 11th October 1933.

Mg 129-33 f



FROM

N. Madhava Rau, Esq., B.A., B.L.,
Muzrai Commissioner in Mysore.

To

A. N. Raghavachar, Sy.,
Secretary to the Government of His Highness the Maharaja of Mysore.
Financial Department.

SIR,

I have the honor to invite reference to your letter No. [illegible] dated 23rd November 1932 stating that a consolidated rate of Rs 30/- per month had been fixed for the electric lights in Gumbuz at Seringapatna and that the same cannot be reduced. The Gumbuz Committee have again brought to notice the hardship of the said flat rate of Rs 30/- and requested that the charges charged for the lights in the Masjid-i-Aala may be based on the power consumed. The latter charge might amount to as much as Rs 10/- or Rs 40/- per month in the months when the nights are longer and moonlight. But the illumination of the Masjid-i-Aala is necessary for some time past as crowds assemble there in large numbers for the heavy cost of replacing the bulbs. Hence, the question of limiting the Masjid charges is essential adjustment to the present rate of Rs 30/- fixed for the Gumbuz. I therefore requested the Gumbuz Committee, when the suggestion of the Deputy Commissioner have been brought that a flat rate of Rs 20/- might be fixed for the Masjid-i-Aala lights according to the rate of Re 0-1-0 per unit, as in the case of Jamia Masjid to avoid any advertisement. The Chief Electrical Engineer, who has been consulted in the matter, is not agreeable to the proposal, and has suggested that the Government may be moved in the matter of reduction in the rate was desired.

During this year's Dasara Session of the Mysore Representative Assembl Government promised to examine sympathetically the question of showing further concessions to Religious and Charitable institutions in regard to lighting rates. I am therefore submitting this case which is a rather hard one for reconsideration.

3. A copy of the Mysore Deputy Commissioner's letter No.H.Per 6/32 dated 31st January '33 with its enclosure is herewith enclosed.

I have the honor to be,

Sir,

Your most obedient servant,

Muzrai Commissioner.

etter No.H.Per.6/32 dated 31-1-33 from the Deputy Commissioner, District, to the Muzrai Commissioner in ysore.

Lighting charges of minarets of Masjid-i-ala - Seringapatam.

With reference to your Memo No,D2 Dis.419/32-33 dated 28th November 1932 regarding the waiving of the lighting charges of minarets of the Masjid-i-ala at Seringapatam, I have the honor to state that the flat rate of R. 360/- sanctioned by Government is towards the lighting charges of the Gumbuz. The Sub Division Officer, French Rocks, reports that the lighting charges of the Masjid-i-ala at Seringapatam are being met monthly from the funds of the institution separately as both the Gumbuz and the Masjid-i-ala are clubbed under one common scale of expenditure. The Gumbuz Committee and the Sub Division Officer, French Rocks, have stated that the illumination of the minarets of the mosque is not for any purposes of the charity but only for attracting visitors and enhancing the prestige of the Government and is for show purposes, and that therefore a concession rate of R-0-1-0 per unit as in the case of power consumed for advertisement, should be permitted or a flat rate of R 7-8-0 per month fixed for both the Masjid and minaret lights.

2. I request that sanction of Government may kindly be obtained to the proposal of the Sub Division Officer and the Gumbuz Committee.

3. The connected papers on the subject are enclosed.
